## Becoming Manifest Transformation

## Translated from Hebrew of Genesis

### Chapter One

1. The underlying Foundation is Consciousness.
2. Consciousness invokes definition of its parts.
3. Contracted movement in Original Will manifests the defined creation. Gen 1:1
4. The act of defining creates a duality and viable poles.
5. The relationship between the consciousness and the defined creates a gravitational/relation field. This field is a unique multi-dimensional phenomenon called space and is here after referred to as the Vessel.
6. Orbit and spin are a result of poles.
7. The ultimate result of motion is the sphere.
8. Expansion and Contraction within the Sphere creates the Torus, the vessel.
9. At the center of the Torus is the Void, or Original Source.
10. Width of the Torus tube is the defined contraction. Beth = 2 , the redefined poles.
11. The width of the overall Torus structure is the defined expansion. Lamed = 30.
12. Consciousness = Heh = 5 = contraction (2) plus expansion (30 sans zero = 3)  $2+3=5$

13. The **Volume** of this torus is the culmination of conscious original movement or *conscious*  $\aleph$  (5)

*Original*  $\aleph$  (1) movement's  $\aleph$  (200) culmination  $\aleph$  (90). H'Aretz - Earth = 296 (Gen 1:1)

Torus volume =  $2 \times \pi^2 \times \text{Radius of the orbit} \times \text{radius of the tube squared}$ .  
=  $2 \times (3.1415 \times 3.1415) \times 15 \times (1 \times 1) = 296$

14. The **Surface** of this torus is the culmination of the receptivity (mem yod mem) of humanity or 592 or *Vessel*  $\aleph$  (40) manifest  $\aleph$  (10) *Vessel*  $\aleph$  (40) becoming  $\aleph$  (6) humanity's  $\aleph$   $\aleph$   $\aleph$  (406) culmination  $\aleph$  (90)

Torus surface area =  $4 \times \pi^2 \times R \times r$  where  $r$  is the radius of circle beth "contraction"  $2/2=1$  and  $R$  is radius of large circle lamad "expansion" =  $30/2 = 15$ . =  $4 \times (3.1415 \times 3.1415) \times 15 \times 1 = 592$

15. The volume of the Torus 296 (H'Aretz), characterizes defined consciousness .Gen1:2

16. Contracting to the center vitalizes Will's seed, expanding into the individual manifested. Gen 1:2

Verse 1:3 Kether, thought's fire - Exothermic process or reaction that releases energy from the system to its surroundings

Verse 1:4 Light and reunification. Abundance and discernment

Verse 1:5 Exothermic process manifests Vessel and Soul. Thought (internalized sound) discovers the Origin's abundance

Torus in Genesis 1:1

This is my translation of the first verse of Genesis. The torus is defined by the internalizing/expansion pattern which is continued in the next few verses. The numerics give added justification to this pattern.

**Contracted** movement in Original Will Manifests defined creation.( B'raseth B'ra)

Original **Expanded** consciousness manifests the vessel

Torus motion: Original Will moves. It's movement corresponds to it's nature, which is to contract (beth=2). This circular movement develops a pattern of a torus which is the expansion (lamad=30) into a blossom, from 2 dimensions to 3 (or more). This 3 (or more) dimensional reality is the vessel.

**Genesis 1:1** Contracted movement in Original Will manifests the defined creation. Original Expanded consciousness Manifests the vessel. Original defined consciousness wills vessel's manifestation. Vessel becomes humanity's Origin moving to culmination.

*Contracted movement in Original Will manifests the defined creation. The Original Expanded consciousness manifests as the vessel. As the Origin's consciousness is defined so is the vessel manifested. Vessel is the womb of humanity moving to culmination.*

The Original Will, through movement, manifests the defined creation. This consciousness expands into the vessel of our existence. We live and culminate within the vessel. Original Will manifests humanity based on the original consciousness.
