[The teachers available to De Vere: Dee, Bruno, all the old masters preserved in books and manuscripts, all had unique perspectives. De Vere had to be able to understand the intense focus of these teachers while still retaining his individualism and creative flow.]

Sun Sextile Pluto: Opportunity to transform conscious mind's personality, as represented by the natal moon sign [Aquarius] , through the incorporation of the positive traits of natal sun sign [Aries] . Recognizes their need to dissolve negative attitudes and thought patterns, but not necessarily the drive to cleanse the personality of all negative traits. This aspect gives intuitive perception. . . . Aquarius and its ruler, Uranus, want to change the world by bringing new ideas to old conditions. Both have a profound desire to bring about advances in art, science, politics, and literature and to establish a new type of human understanding which would create friendships between communities, cities, states and nations. [Uranus is both the focus of this Finger of God, this Life Task, and the invoked God of its base, being the ruler of Aquarius, the resting place of the Natal Moon.] page 161: Because Uranus is related to all that is new, progressive, and future-oriented, there is a strong influence of creative force. True creativity invariably produces original work or ideas. Even when an established art form or literary format is used, the Uranian inspiration will give it a new slant. Evangeline Adams wrote of Uranus: 'if you will not allow him to create, he will devour.'

Jupiter Trine Uranus In other life times had begun the work of learning tolerance and of seeking new philosophic concepts. Has an unusual life, because this is a spiritual-blessing aspect, indicating these individuals have merited this aspect from other lifetimes. They enjoy new experiences, new places , and new ideas. Their desire for new ideas causes them to continually question the whys of different situations.

Saturn Trine Venus In other lifetimes these individuals have begun the work of balancing the seriousness of life with the ability to physically demonstrate their affections. They will have only a few very close friends, but they will be loyal and trustworthy.

Jupiter Square Pluto This challenge is to learn humility, patience, and tolerance. If they succeed, they will achieve great success.
